PROFESSIONAL SUMMARY

Software Engineer with expertise in AI, Machine Learning, and Software Development. Skilled in Python,Object-Oriented Programming (OOP), and Data Structures & Algorithms, with experience in building scalable applications using Flask, MySQL, and TensorFlow. Currently an AI Intern at i95dev, contributing to real-world projects in an agile environment. Strong problem-solving skills, solid CS fundamentals, and a passion for creating impactful software solutions.

EXPERIENCE

i95Dev — AI Intern **July 2025 – Present**

- **Shopify B2B Portal:** Developed a bridge between Shopify and Laravel for seamless data synchronization. Designed and implemented backend architecture, handled Shopify API integrations, and ensured efficient data flow between systems.
- **n8n Custom Nodes**: Built two custom nodes for eCommerce and ERP platforms (Magento and Business Central). Utilized Swagger UI and company APIs from Cloud i95Dev to automate data transfer between platforms. Currently enhancing the project with AI-driven customization capabilities for dynamic data handling through prompts.
- **Shopify AI Agent**: Developing a chatbot using MCP architecture to perform Shopify tasks through natural language prompts.

SKILLS

Full Stack & Databases : Python, JavaScript , C, HTML, CSS3, React.js, Node.js, Flask, MySQL
Machine Learning & AI : Scikit-learn, TensorFlow, Keras, PyTorch, LLMs, Gen AI, ML Algorithms
Deep Learning & Computer Vision : CNNs, RNNs, Transformers, Image Processing, OpenCV
DevOps, Integrations & Deployment : Docker, GitHub Actions, CI/CD Pipelines, API Integrations
Developer Tools & Platforms : Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Power BI, Shopify App Development

EDUCATION

Maturi Venkata Subba Rao Engineering College **Hyderabad,Telangana**
B.E. in Information Technology-CGPA-9.19 Graduation Date: Jun 2025
Sri Chaitanya Junior Kalasala **Hyderabad,Telangana**
Intermediate-Marks- 958 Graduation Date: Jun 2021
Sri Chaitanya School **Hyderabad,Telangana**
Schooling-CGPA-10.0 Graduation Date: Apr 2019

PROJECT EXPERIENCE

AgriConnect – Contract Farming Platform:
Built a web-based platform to facilitate secure agreements between farmers and buyers using Flask and MySQL. Added tools for contract management and price negotiation.

NEURO ALERT – Brain Tumor Detection:
Applied a CNN-based system to detect brain tumors from MRI scans. Included image preprocessing, segmentation, and classification using TensorFlow.

Underwater Image Restoration Using Residual Network + ECA + Sigmoid Linear Unit:
Enforced a deep learning pipeline using Residual Network with Efficient Channel Attention and Sigmoid Linear Unit activation to restore underwater images. Addressed challenges of low contrast, blur, and color distortion using TensorFlow and OpenCV.

Customer Churn Prediction in Telecom
Analyzed customer data to predict churn using Scikit-learn and logistic regression. Improved model accuracy with feature engineering and data preprocessing.

CERTIFICATES & COURSES

Accenture Primer Training (Oct 2025 - Nov 2025)

AWS AI/ML Virtual Internship – AICTE-Eduskills (May 2023 – Jul 2023)

Google AI/ML Virtual Internship – AICTE-Eduskills (Apr 2024 – Jun 2024)

AWS Certifications: AWS Data Analytics, AWS Machine Learning
